INGLEWOOD RESIDENCE by Virginia Marco

The resident in Inglewood is a particular case of pass life connection.

When we arrived to the residence, the house is a normal house, with picket fence surrounding front yard but inside, the family were uneasy, because of the ghost, the family said the ghost has been bothering them for a long time.

My colleagues and I stated the investigation, we found the ghost in the master bedroom. I saw the male ghost almost invisible (I usually see the ghost in a solid state).

I asked the male ghost his name? He answered Pedro Mon----! He was a 35 year old, Latino looking.

I told him you don't suppose to be here, you are dead! I was very firm. The male ghost responded, "I know I am dead"! I follow the family for a long time because I was in a pass life with one of their daughter, then Michael pointed to a picture of the little girl and he ask Is that her? Pedro, the ghost, nodded his head, yes!

By the family request I send the male ghost to the light once and for all.

Footnote: This particular male ghost was between two dimensions, because he knew that he was dead.
