

**By Virginia Marco Psychic investigator and Medium**

**Orange County land has a lot of imprinted history, some how many spirits did not cross over, this happens due to lack of knowledge about crossing over to the other side or lost on the way to the light and most of the time fear; fear of the unknown.**

**Nancy was contacted by this specific family which had an encounter with a ghost. The little girl in the family was afraid to go to the yard and play because she can see the entity and talk to the entity as well.**

**The mother was very afraid of the entity since she thought the entity would harm her little girl.**

**This is were I came in, being a psychic medium, I can see and communicate with any form of entities, spirits, etc. This entity is not an exception.**

**Nancy, Stephanie and I, arrived to the family house, we proceeded to investigate, we all when on separate way inside the house, I went directly to the back yard, in there I saw a spirit in distress.**

**The male spirit was 5'7" feet tall, around 180 pounds, white skin, green eyes, dark hair on the side of his head and a moustache, no clothes, he was nude, the most terrifying side was that his body was surrounded in flames.**

**I began speaking to the male spirit, he was at first hesitant to speak to me, and this is his story:**

The male spirit name was Tomas Cray C., 61 years old, he spoke in English, Tomas Cray said that he was sitting in a rocking chair reading a book, when suddenly he felt an intense heat coming from inside his stomach, then his entire body was in flames, he couldn't move nor scream, then his book was burning and then the house. ( His book started the fire that destroyed part of the house).

The male spirit was crying, he said "Please, help me"  
I asked the male entity, -Why are you bothering the little girl?  
She is so scared of you!.

The male entity responded- *"She is the only one that I can speak with! He added-I like her very much, she is the only one listening to me!- I am along! I am burning!- he scream.*

The male spirit walked around the yard looking inside the house from every window, with his body half way in and half way out, ( the male spirit can't not go inside the house all the way, because the lady of the house through holy water inside the house and told the entity to stay away) Also, I send a protection, remotely, to the house by request from the family.
