Private property in Riverside, CA

By Virginia Marco, Psychic Medium

Susan and I arrive at the residence in Riverside, CA, on a sunny Saturday afternoon.

The residents greet us at the door and invited us in, in the living room a I saw a large VORTEX, (a vortex is a open energy window to the other side) This particular Vortex was send to the residents by somebody, known by the residents, the Vortex was following them for some time, from the Vortex I saw three entities that came in through it.

The first entity was a heavy set Caucasian man around 6 feet tall. He told me that his name is Thomas and he is fifty years old, also he said that he disagreed with everything about the residents. He likes to watch them sleep and he would then walk around the house making loud noises by slamming his feet on the floor. I asked Thomas why he was there at the house and he replied- "*I was called*" But I can see that he was lying.

The second entity is a teenager girl, beautiful round face, long dark hair, dressed in white, I ask her name and she replied- "*My name is Noraise.*"

The third entity is the most important of all because this old lady saved the residents from others entities that wanted to come through the Vortex, she love them like a Mother. She caresses their heads and watch over them. The older woman is dressed in white. I ask her where she is from and she replied- "*I am from Maryland*" (The State). Susan wanted to know what her back-ground was and she replied- "*German.*" She had beautiful blue eyes and white hair.

These entities are not related to the residents.

With the permission of the residents we send the entities to the light of God and I closed the Vortex.

Conclusion: The private property in Riverside was haunted.
