Private Residence, in Santa Ana, CA

By Virginia Marco Psychic Medium

We arrive to the Private residence, Susan, Nancy, Jose and I. Right of way a saw a male spirit in the hall way, in front of one of the bedrooms door way.

The male spirit was Hispanic age 56 with dark wavy hair, olive complexion, dress with a white shirt unbutton to the chest, his voice was deep and elegant, his height was 5 feet 5 inches. The male spirit was the grandfather of one of the residence cousin that used to live at the apartment.

I can see the male spirit walking in the bedrooms, in the bathroom making noises with foot steps and the door opening by itself. The mother of the wife's couple living in the apartment confirmed what I was seeing, she felt him close to her, watching her and that happens because he likes her room, which it was the cousin bedroom before.

The grandfather is telling me that he was there because his grandson called him for help.

The problem is that the grandfather likes it there now! Then I ask the male spirit- "*What is your name*"

The male spirit said- "*Miguel, Miguel!* He was telling me the name of a person that the family knew (Spirits like to mention names as insurance so the family will recognize who they are).

The cousin confirmed calling his grandfather. The grandfather is attaching to his grandson energy. I do not recommend this to anyone because the spirits has to rest and the living has to move on.

The male spirit adds-“*he needs me and....*” This part of the message was very personal, at the end of the session I told the family what the male spirit said.

Conclusion

The apartment in Santa Ana, CA is not haunted, it's all about unfinished busyness from the living not the dead.
